WTI REACH Compliance Statement

Under the definition of the REACH regulations EC1907/2006, WTI is a producer of “articles.” REACH requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight. On January 12, 2017, the EU announced an updated list of the candidate 173 SVHC chemicals.

Based on the material content certifications provided by WTI’s suppliers, none of these substances are present in the materials we use in our products, including packing and shipping materials. Therefore, WTI products do not contain any of these SVHC in excess of 0.1% by weight.

WTI supports the basic aim of REACH in improving the protection of human health and environment through the better and earlier identification of intrinsic properties of chemical substances. WTI meets all applicable REACH requirements and is committed to provide our customers with information about substances in its products as required.

WTI assures its customers that our products are in full compliance the EU REACH requirement. Questions regarding our REACH compliance can be addressed by contacting WTI via phone or email.
